NURSERY COMPANY**

**(Waynesboro Nurseries)**

**Waynesboro, Virginia**

***Hardy Fruit Trees and Oramentals  
True to Name***

---

---

## **General Information**

### **PRICES**

In every instance the price named is entirely in keeping with the high quality of our guaranteed stock. Inferior grades of stock may be bought for less, but poor stock is costly at any price and an experienced planter will not buy it. It is not so much what the customer pays as it is what he gets for what he pays that determines his degree of satisfaction.

We Guarantee Stock to be Delivered in Good Condition.

We Replace at One Half List Price Any Stock that Fails to Grow First Season.

### **TRANSPORTATION CHARGES PAID**

We pay transportation charges on our stock at prices quoted, making delivery by Truck, Freight, Express or Parcel Post, as we find advisable.

### **DATE OF DELIVERY**

Will depend upon season. Our Fall Deliveries usually start early in November and continue until the middle of December. Spring Deliveries begin in early March and continue until May. We cannot promise any certain date, but do promise to make delivery at proper time for transplanting.

### **TERMS**

Either cash with order or upon delivery of stock unless other terms have been agreed upon.

## SUITABLE DISTANCES FOR PLANTING

Apples .....	30	by 36 feet
Pears .....	20	to 24 feet
Peaches .....	16	to 20 feet
Cherries .....	15	to 24 feet
Plums .....	16	to 20 feet
Grapes .....	8	to 10 feet
Hedges .....	6	to 10 in.
Currants .....	3	to 4 feet
Gooseberries .....	3	to 6 feet
Raspberries, Red .....	3	by 4 feet
Raspberries, Black .....	3	by 4 feet
Blackberries and Dewberries .....	3	by 6 feet
Strawberries, rows .....	1	by 3½ ft.
Asparagus .....	1	by 3 feet
Rhubarb .....	3	by 4 feet

## NUMBER OF TREES OR PLANTS ON AN ACRE

2 feet each way .....	10,790
3 feet each way .....	4,850
4 feet each way .....	2,723
5 feet each way .....	1,742
6 feet each way .....	1,210
8 feet each way .....	680
10 feet each way .....	430
12 feet each way .....	302
15 feet each way .....	194
18 feet each way .....	135
20 feet each way .....	110
24 feet each way .....	71
32 feet each way .....	40

To ascertain the number of plants required to the acre at any given distance, divide the number of square feet (43,560) in an acre by the number of square feet you desire to devote to each plant. For instance, in strawberries planted 1½ by 4 feet each hill will occupy 6 square feet, making 7260 plants to the acre.

# A Complete Foundation Planting For \$19.95.

The Shrubs we furnish in the above offer are not to be compared with a small grade of stock frequently offered by mail order houses or department stores. Every plant is three years old or more and will make a wonderful showing the first season.

If you prefer other varieties of Shrubs, you can still use this plan, merely substituting other Shrubs of similar characteristics.
